IPC - Standards + codes

4 November 1968

MEMORANDUM FOR: Chief, Information Processing Staff

SUBJECT   :   Task 2-4, NCS Standard Data Elements and Codes

1. The attached letter from ███████ suggests that this is   STATINTL
not strictly a problem in developing communications standards. The
2-4 task group will be wanting information on the content and format
of ADP files which will be transmitted over communications networks.
I don't know what, if any, impact these standards will have on ADP
operations but it does seem reasonable to have someone from the ADP
field involved with the task group.

2. Would you care to recommend a participant. My feeling is
that its an Agency problem and not a Directorate one, but I will
designate a participant if you feel its appropriate.

███████████████████   STATINTL

Chief, Support Services Staff
